# SETTING MONUMENTAL STANDARDS ACROSS THE GLOBE.

The BROUWER MONUMENT SETTER is a unique tool for transporting and setting monuments in a wide variety of conditions. The compact size and variable hydrostatic drive allows the machine to navigate into tight spots. The outrigger design allows for large monuments and bases to be set easily and safely by a single operator. The controls are easy to use and the proportional valves of the crane allow for gentle monument setting. The 13 hp Honda Engine, with Electric Start, provides smooth and quiet operation, with sufficient power for slopes and heavy loads.

## Monument Setter Features:

- Durable heavy steel frame
- Easy to operate
- Hydrostatic transmission
- Pivoting rear dual wheel steering means minimal turf damage or scuffing, excellent maneuverability
- Installs monuments quickly and precisely
- The Crane hydraulic system has proportional valves for exact control of monument placement
- Easily transportable

## Monument Setter Specifications

Width .....	73 in. (185.4 cm)
Height .....	80 in. (203 cm)
Length .....	132 in. (335 cm) - Operating 125 in. (317.5 cm) - Transport
Weight .....	1925 lbs. (873 kg)
Wheelbase .....	65 in. (Center to center of tires)
Tires .....	Front: 24x12-12 turf tread Rear: 18x9.50-8 NHS. 4 Ply
Fuel Capacity .....	1.34 Imp gal. (6.1 liters)
Controls .....	Spring centered control handles Cable control to hydrostatic pump
Jib Crane .....	Maxi Lift M180.H Crane
Steering .....	Pivoting dual rear wheels Height adjustable control handle
Drive .....	Infinitely variable hydrostatic drive to front wheel hydraulic motors
Ground Clearance .....	8 in. (20.3 cm)
Engine .....	13 hp GX390 Honda, electric start
Load Capacity .....	Weight 3000 lbs. (1361 kg)
Speed .....	0 - 4.7 mph (7.56 kph) Infinitely variable forward/reverse
Outriggers .....	Extendable Longitudinally (front) and Laterally - 5000 lbs. cap: jacks
Options .....	Crane Proportional Remote Control - Corded
